

Trees and Forests Field Study (adaptable) Grade 2—9

Beauvais Lake
Education Programs
The Nature of
Outdoor Learning!

www.albertaparks.ca

Top 3 Experiences:

- 1. Outdoors, on task, and discovering nature's first sunscreen.*
- 2. Observe wildlife, habitats, lichen and scat all in one day!*
- 3. Everyone will discover at least one thing they have never seen before in their whole life - guaranteed.*

Students and teachers visit and explore the montane forest of Beauvais Lake Provincial Park. Students identify the different species of trees in the montane forest and how wildlife depend on them for survival. Using study tools provided, students apply their observation skills to record common and not so common organisms that live in, on and around different tree species. Students will leave the park with a better understanding of how trees function and contribute to our communities health and well being.

The Trees and Forests field study is available to book any time, any season, call Heidi Eijgel, or Sarah Downey, Beauvais Lake Provincial Park Education Program at 403 627-1152.
